**WHISK END TABLES**

Smart + Witty + Charming

Inspired by the wire whisks of an egg beater, WHISK is a sociable set of occasional tables for the home or any setting that needs a whip of visual delight.

The metal strap frame is encased in two tones of leather, hand stitched along the edges like a fine belt. Neutral tones on the outside and vibrant tones on the inside define the forms and provide a glow.

The tinted glass tops are attached to the base for ease of movement and arranging. Use as individuals next to a chair or as a group in front of a sofa.

*Handmade in California*

**DIMENSIONS**
